

Harness compatibility chart – GROM Audio

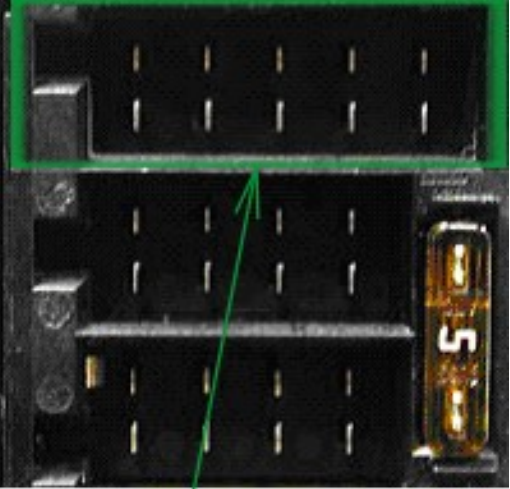

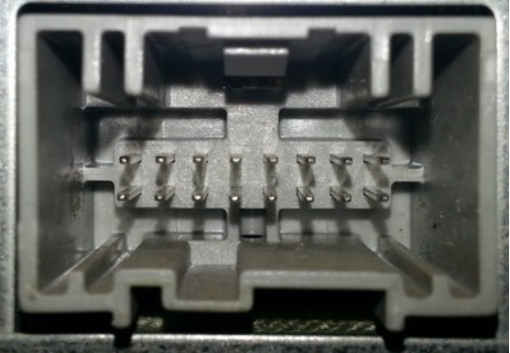

Below chart matches connector at the back of the stereo with the appropriate adapter and cable SKU for GROM-USB2P, GROM-AUX, GROM-BT3 and GROM-AND2 adapters. You can use it to check the back of your stereo, and make sure that the CD changer connector port (extension port) is present there. For detailed compatibility chart please check http://www.gromaudio.com/grom_application_guide.pdf

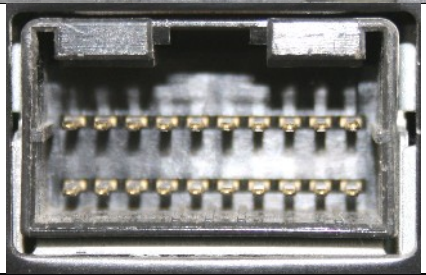

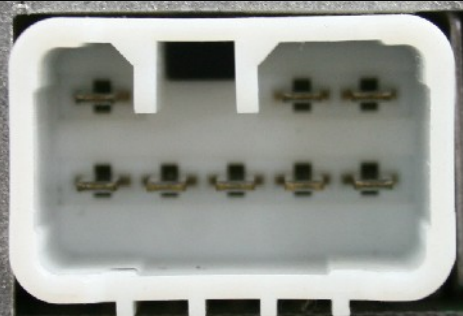

Car Make	Connector at the back of the radio	Adapter Model	Cable SKU
Honda/Acura 03+		GROM-USB2P-HON1 GROM-AUX-HON1 GROM-BT3-HON1 GROM-AND2-HON1	HON1M

Notes:

* LEX cable is needed for certain Lexus vehicles, if there is no port available to connect TOY or TOY1 harness. If you checked the back of your stereo, and it does not have the port to connect TOY or TOY1 harness, request LEX cable from us.

** For VW/AUDI/Seat/Skoda interfaces with VAGS or VAGD cable: **there is a black single cable on the vehicle specific harness that** you will need to attach to the metal part of the car stereo chassis (car stereo body). Without attaching the black cable to the chassis of the stereo GROM adapter will not work! Please read the instructions in you booklet or at <http://gromaudio.com/documents.html>
